

ShareView PC

79402 Data Sheet

TEKVOX's ShareView PC is a state of the art, three-in-one product that combines the advanced functionality of multiple products into a single, highly-integrated package. Utilizing the software-based PC TekMonitor infrastructure, the ShareView PC is able to act as the system controller for any Drop-In A/V® solution, with no separate controller needed. The ShareView PC is also a fully-functional video conferencing PC with an impressive set of specifications and modern hardware, ready to conduct remote meetings in 4K resolution. Finally, the ShareView PC integrates dual channels of the innovative ShareView technology, which allows meeting attendees to share content from their own devices without the hassle of opening additional instances of the meeting.

The ShareView PC is ideal for those looking for a one-box product to provide video conferencing and remote learning capabilities to any space, achieving an unprecedented level of integration. ShareView combines the sophistication of a video codec system and the convenience of web-based videoconferencing with an affordable, intuitive, and non-invasive interface.

Features:

- Fully-functional video conferencing PC with high-quality, modern hardware & software
- PC-based TekMonitor with support for comprehensive serial control of four devices
- Dual channels of 4K-resolution ShareView™ for quick and easy content sharing & recording
- Industry-leading hardware integration combines four devices into one
- Ultra-compact, fanless design for easy & convenient mounting anywhere
- Shipped fully functional, pre-programmed, and rigorously tested

ShareView PC

79402 Technical Specifications

CPU	Intel Core i7-8550U (Kaby Lake R)
Graphics	Intel UHD Graphics 620
Video Outputs	1 HDMI 2.0 (4096×2160 @ 60Hz) 1 DP (4096×2304 @ 60Hz) 1 EDP (4096×2304 @ 60Hz)
Control Ports	4 RS232 COM (DB-9, Male) 2 RS485 COM (DB-9, Male) 4 USB3.1 (Type A, Female) 4 USB2.0 (Type A, Female)
Network Ports	2 Intel I210/211 Gigabit LAN (RJ45, Female)
Audio Ports	1 MIC Stereo Audio Input(3.5mm mini jack) 1 SPK Stereo Audio Output (3.5mm mini jack)
Power Supply	Input: 100~240VAC, 50/60Hz Output: DC 12V, 5A
Power Consumption	60W (max)
Product Dimensions	9.3"(237mm) x 6.9"(175mm) x 2.1"(53mm)
Product Weight	4.4 lbs. (2 kg)
