

TEKVOX Organizational Announcement - Investing in Growth!

In the short time that I have had the privilege to be associated with TEKVOX, we have made amazing strides in the company's evolution towards being the industry's leading supplier of cost-effective, easy to install, and thrifty-to-operate TekPatrol™ Drop-In™ class and conference room solutions. In addition to gaining traction with each and every account that we have collaborated on, we also won a prestigious "Best of Show" at InfoComm 2014. We have continued to accelerate our pace of change and I am pleased to announce to you now that we have retained two world-class executives to our management team.

First, Stuart Soresen has joined our Board of Directors as investor and Secretary/Treasurer. I have had the good fortune to work with Stu off and on for the past 20 years, including his tenure as my CFO at Luminary Micro. I know Stu to be one of the strongest partners on corporate governance and financing that a company could hope to attract. Most recently, Stu was CFO of Nuventix which successfully completed an acquisition by Aavid Thermalloy.

I am also very pleased to announce that Pete Zimmer has joined us as Vice President of Sales effective immediately. I have worked closely with Pete for a good part of the last decade as well and know him to be one of the most capable builder of sales capability in the tech industry. Pete has driven sales at Fortune 500 and startup companies and has my complete confidence to parlay TEKVOX's promise into hundreds of millions of dollars of real revenue in the upcoming years.

Pete's base of operations will be his home town of Phoenix which will allow him to work closely with your management team while simultaneously increasing our regional reach to the West, Southwest, and Northwest. You are welcome to work with Pete directly at pete@tekvox.com.

I hope that you will embrace our new team members and embrace our drive to offer every company and every school the TEKVOX advantage that includes lower cost of acquisition and installations, as well as lifetime savings in operating and support costs.

We have an amazing value-proposition; I invite you to challenge us to make the best of our opportunity.

Best regards,
Jim Reinhart,

Chairman & CEO
TEKVOX
