

# TekSecurity Cables

## 78006-78041 Data Sheet

TekSecurity cables are used to connect 78001 TekSecurity modules to projectors & displays. With a variety of wiring configurations and heads available to fit any display RS232 port, these cables greatly simplify installation and replacement of displays and projectors.

### Features:

- Standardized RJ12 head maximizes interchangeability of cables
- Compatible with any installation using TekSecurity anti-theft protection
- Configurations available for compatibility with all major manufacturers' displays
- Available heads include DB9 (Male/Female), Mini-Din (6, 8, and 9), and 3.5mm stereo jack
- Shipped fully functional, pre-programmed, and rigorously tested
