WUH4-Hub

79134-Kit Data Sheet

The WUH4-Hub is an HDMI 2.0 4x1 KVM switcher with four HDMI inputs and one HDMI output. It supports resolutions up to 4Kx2K@60Hz 4:4:4 HDR10, and a stereo audio output for audio de-embedding. The KVM includes three USB 3.0 ports for connecting USB devices—such as mice, keyboards, cameras, or microphones—and supports four USB hosts in conjunction with the HDMI inputs. The switcher also comes with four HDMI/USB table grommets for connecting user devices, and for controlling source selection and output muting. The switcher can also be controlled via RS232 commands and the front panel buttons, and supports auto-switching.

With high-speed USB data transfer, streamlined seamless KVM switching, and a compact design, the WUH4-Hub is perfect for versatile, multi-host video conferencing and peripheral-sharing applications.
