The TFX-OAU is an audio output card with EQ Control that works with the TekFlex-16 and TekFlex-32 Chassis. The card has a balanced mono input, as well as two PCM audio outputs.

Features:

- Single input, dual output stereo audio
- Mic/Line in, Mix and Pgm Out
- 3-pin pluggable terminal block connectors
- Maximum power consumption of only 5W
- Compatible with any output slot of a TekFlex-16 or -32 flexible matrix switcher
- Shipped fully functional, pre-programmed, and rigorously tested

TFX-OAU
