

Wunderbar II

79444 Data Sheet

Ideal for small and medium conference rooms, the Wunderbar II includes everything necessary for video conferencing in a single convenient package, including a camera, microphones, and speakers. With easy installation in mind, the Wunderbar II can be mounted on a wall or table, and can connect to a PC via a single USB 3.0 cable.

The Wunderbar II's UHD camera and array microphones dynamically track speakers, while the camera's ultra-wide field of view and undistorted lens ensure full-room video coverage. Six array microphones guarantee clear audio pickup from anywhere in the room, and the Wunderbar II's built-in speakers guarantee that everyone can hear clearly. Featuring three essential video conferencing technologies in one, the Wunderbar II delivers unmatched quality, convenience, and sophistication for a cost-effective price.

Features:

- Integrated camera, microphone, and speaker
- Array microphones offer real-time voice tracking & 20-foot pickup range
- Dual 7W speakers ensure that every participant can hear clearly
- Face detection algorithm automatically detects participants and provides ideal framing
- 8 megapixel high-quality CMOS image sensor and support for 4K video output
- 120° viewing angle and undistorted lens cover every corner of the meeting room
